

15-120 Panel Mount Pressure and Vacuum Gauges with 1/4" Barb

Power Aire now offers Panel Mount Pressure and Vacuum Gauges. The case and bayonet ring is 304 stainless steel. The lens is plexiglass. The bourdon tube is phosphor bronze "C" tube, for pressures up to 600 psi, 316 SS coiled safety tube above 600 psi. Movement; brass and nickel-silver with highly polished bearing surfaces, and accuracy of $\pm 1\%$ full scale. ANSI Grade 1A. The pointer is balanced micro-adjustable aluminum with a black finish. The dial is aluminum; white background with black psi scale and red kPa scale is standard.

Panel Mount Clamps (PMC) of chromated steel are available for panel mounting models 15.110, 20.110 and 25.110. The PMC is easily (field) installed into pre-formed locking grooves in the case and uses the built-in bezel, which is molded as an integral part of the case, as a narrow flange on the front of the panel.
